

AI Engineer

Location: Ahmedabad, India

Experience: 1–3 years in AI / ML / Data Science (Freshers with strong projects can be considered)

Employment Type: Full-time

CTC: ■6 LPA – ■12 LPA (depending on experience and skill level)

Joining Time: As per company requirement

Reporting To: Tech Lead / Head of Engineering

Role Overview

The AI Engineer role is designed to leverage AI and ML capabilities to drive business growth. The selected candidate will be responsible for developing and deploying AI/ML models that can be used to solve real-world problems. The goal is to create a significant impact on the organization by leveraging technology. The ideal candidate will be expected to collaborate with various teams and contribute to the development of innovative solutions.

About WOGOM

WOGOM is a B2B Commerce and Retail Enablement Platform, empowering 6,000+ retailers and 450+ sellers across India with better Products, Pricing, Credit, and Growth Opportunities. Our goal is to build a connected ecosystem where technology, capital, and commerce converge to help Indian retailers scale with confidence.

What You'll Do

- Design, develop, and deploy AI/ML models for real business use cases
- Work with structured and unstructured data to train and optimize models
- Integrate AI models into production systems and internal tools
- Collaborate with product, engineering, and business teams to understand requirements
- Monitor model performance and improve accuracy over time

Who Will Succeed in This Role

The ideal candidate will be a team player with a strong passion for AI and ML. They should be able to work collaboratively with various teams, think creatively, and have a problem-solving mindset. The ability to communicate complex ideas effectively and document workflows is essential.

Must-Have Skills

- Machine Learning & Deep Learning fundamentals
- Python programming
- Model deployment & real-world AI implementation

Preferred Skills

- TensorFlow / PyTorch
- SQL & Data Analysis
- APIs & backend integration

LangChain / LLM frameworks

Communication & documentation skills
